

# 2026 Fidelis Cup Scoring and Prize Money

---

The Fidelis Cup is intended to reward overall performance, speed, and control, not a single run.

Each event weekend offers up to \$1,000 total prize money, awarded as a single combined payout based on weekend performance.

## **ELIGIBILITY**

- The handler and dog team must be the same across all classes entered.
- Competitors may enter any or all eligible classes. However, only the best four (4) weighted run scores will be used.

## **ELIGIBLE CLASSES**

*Day 1 (the following classes count):*

Agility: A2, A3

Jumping: J2-1, J2-2, J3

*Day 2:*

Only the first three classes in the running order will count toward prize money scoring.

Jumping: J2-1, J2-2, J3

*Day 3 (if applicable):*

No classes count toward prize money scoring.

## **ELIGIBILITY FOR PRIZE MONEY**

To be eligible for prize money, a dog must have at least one non-eliminated (non-E) run in an eligible class.

Dogs with no non-eliminated runs are not eligible for prize money and will not be ranked.

## **COMBINED SCORING**

For each dog, the best four (4) weighted run scores across the weekend are summed to determine the final total.

## **ADJUSTED TIME**

Adjusted Time = Raw Time + 5 seconds per 5 faults

- Standard faults and refusals are scored as 5 faults each
- Eliminated runs (E) receive no score

## **NORMALIZED RUN POINTS**

Run Points =  $100 \times (\text{Fastest Adjusted Time} \div \text{Dog's Adjusted Time})$

- The fastest non-eliminated run in each height/class earns 100 points
- All other runs are scored proportionally

## **LEVEL WEIGHTING**

Level 2:  $\times 1.00$

Level 3:  $\times 1.25$

## **PLACINGS AND TIE-BREAKERS**

Dogs are ranked within their jump height by combined weekend score.

Ties are broken in the following order:

1. Greater number of Level 3 non-eliminated runs
2. Lower total faults across counted runs
3. Faster adjusted time on the highest-level agility run

## **PRIZE MONEY ALLOCATION**

Prize money is allocated by jump height based on the number of unique dogs entered in eligible classes across the weekend.

If a jump height:

- has no entries, or
- has no eligible scores (all runs eliminated),

then prize money allocated to that height is returned to the overflow pool and redistributed.

Any unawarded prize money is redistributed among jump heights with eligible results, proportional to participation.

## **PAYOUT DEPTH**

Per jump height:

1-4 dogs: pay 1 place

5-9 dogs: pay 2 places

10+ dogs: pay 3 places

Payout splits:

1 place: 100%

2 places: 65% / 35%

3 places: 50% / 30% / 20%

Each dog may receive prize money once per weekend.

**ROLL-DOWN POLICY** If a placed competitor leaves before completion of the event weekend or is not present for awards, prize money will roll down to the next eligible competitor in that jump height.

**NOTE:** These rules apply to Fidelis Cup scoring only and do not affect standard class placements, qualifications, or titles.
